Project title: Think Tank – _____
Problem Statements

As a...	I need to...	So that I can...	To do this I need to...	I know I am successful when...
Resident	Make sure there is enough clean water to drink for my health and the landscape; enhance my quality of life. Be okay with drinking purified rainwater.	Be mentally healthy and feel assured about having enough water in the system, so that I have water security. So I can live in a beautiful, green place.	Have access to affordable water.	I am self sufficient, self funding with no environmental impact
