

OUR VISION

Sydney Science Park (SSP) is a \$5bn project that will create an internationally recognised epicentre for research and development and innovation in the heart of Western Sydney.

SSP has the vision to be a vibrant, integrated and sustainable city, founded as a centre for disruption and innovation, where people can innovate, learn, live, play and trade in a connected and responsive community.

SSP will bring together leading innovators in industry, education and business with a primary focus on the following research and development pillars:

1. **HEALTH**
2. **FOOD (HIGH-TECH PRODUCTION, STORAGE AND BIO-SECURITY)**
3. **ENERGY**
4. **SMART CITY AND URBAN DEVELOPMENT (INCLUDING WATER AND WASTE)**
